

# Singapore German Desk

Clyde & Co's Singapore German Desk provides legal services to German companies with a presence in Singapore and international companies with business activities in Germany.

We are uniquely placed to assist clients by bringing together the expertise and experience of an integrated network of German and Singaporean and other international legal professionals, to offer services that are not only bilingual but also bicultural. They provide a unique link between the German and the Singaporean market. We are able to provide insights into both the German and the Singaporean market as well as into 'the way business is done' in the two countries.

Our team specialises in providing non-contentious and contentious advice to clients in the Trade & Commodities, Energy & Natural Resources, Transportation & Logistics, Infrastructure, Marine and Marine Insurance sectors. We are able to advise on German, Singaporean and English law.

## German offices

Clyde & Co opened its first German office in Dusseldorf in 2016, followed by Hamburg in 2018 and Munich in 2021. Acting as one team with colleagues from our global network, our German offices give Clyde & Co a strong local presence while operating on an international level. Our resident partners offer long-standing experience and in-depth knowledge of the German market, helping domestic and international clients alike to resolve their most critical problems and supporting their business goals.

## Singapore office

Our Singapore office is a hub for companies across Asia Pacific, including developing economies in Southeast Asia.

Our Singapore office was established more than 30 years ago and is a key part of Clyde & Co's global network. Clyde & Co provides an integrated service for local and international clients in Singapore through our joint law venture, Clyde & Co Clasis Singapore. This offers clients seamless offshore and onshore advice, and draws together the global knowledge of Clyde & Co and the local knowledge of Clasis LLC.

## Our Energy, Marine and Natural Resources experience
